

Liste der bewilligten Forschungsprojekte 2025 *Liste des projets de recherche acceptés en 2025*

Im [Forschungsportal](#) finden Sie Informationen zu allen Projekten, die die Stiftung Krebsforschung Schweiz und ihre Partnerorganisation Krebsliga Schweiz seit dem Jahr 2005 gefördert haben.

Dans le [portail de recherche](#), vous trouverez les informations sur tous les projets soutenus par la fondation Recherche suisse contre le cancer et son organisation partenaire, la Ligue suisse contre le cancer, depuis 2005.

Basic research

Pascolo Steve | [Optimisation and pre-clinical validation of a trifunctional anti-cancer RNA drug candidate](#)

Klinik für Dermatologie, Universitätsspital Zürich (USZ), Schlieren
CHF 374 800 | 36 months | [KLS-6468-08-2025](#)

Petrova Tatiana | [Therapeutic Potential of an Anti-Tumor Bacterial Metabolite for Preventing Metastatic Relapse in Colon Cancer](#)

Department of Fundamental Oncology, Université de Lausanne (UNIL), Epalinges
CHF 375 000 | 36 months | [KLS-6555-08-2025](#)

Zampieri Mattia | [Charting the high-dimensional metabolic landscape of lung tumors to enable drug repurposing](#)

Department of Biomedicine, Universität Basel, Basel
CHF 371 208 | 36 months | [KLS-6512-08-2025-R](#)

Clinical Research – laboratory-oriented

Magnani Chiara F | [Immune Landscape and Therapeutic Strategies to Enhance CAR T-cell Response in B-ALL](#)

Klinik für Medizinische Onkologie und Hämatologie, Universität Zürich (UZH), Zürich
CHF 364 224 | 36 months | [KLS-6541-08-2025](#)

Clinical Research – patient-oriented

Meerwein Christian | Time is nose: Enhancing fast-track interdisciplinary care in sinonasal cancer through integrated navigation, imaging, molecular profiling, and personalized radiotherapy at the University Hospital Zurich

Otorhinolaryngology, Universitätsspital Zürich (USZ), Zürich

CHF 369 974 | 24 months | [KLS-6483-08-2025](#)

Schröder Christina | Risk adapted stereotactic radiotherapy vs. standard of care radiotherapy in patients with prostate cancer in the adjuvant or salvage setting with or without Lymph Node irradiation (RIDDLELN) – A Phase II trial

Institut für Radio-Onkologie, Kantonsspital Winterthur (KSW), Winterthur

CHF 157 308 | 48 months | [KLS-6488-08-2025-R](#)

Psychosocial research

Clavien Christine | PEP-ACP - Planning ahead: Patient Empowerment Program for Advance Care Planning in oncology

IEH2 - Institut Éthique Histoire Humanités, Université de Genève (UNIGE), Geneva

CHF 371 080 | 48 months | [KLS-6446-08-2025](#)

Rubinelli Sara | Strengthening institutional communication for cancer prevention in Switzerland: A national study of Knowledge, Attitudes, and Practices (KAP)

Faculty Health Sciences and Medicine, Universität Luzern, Lucerne

CHF 375 000 | 48 months | [KLS-6529-08-2025](#)

Fellowships

Daetwyler Eveline | Predictive risk model for rapid progression under immune checkpoint inhibitor treatment in patients with recurrent and metastatic head and neck squamous cell carcinoma (R/M HNSCC) – HNPRO trial

Division of Medical Oncology and Hematology, HOCH Health Ostschweiz, St. Gallen

CHF 53 000 | 12 months | [KLS-6472-08-2025 BIL](#)

Hofer Kevin | Integration of epigenetic memory and evolutionary dynamics for resistance prediction in chronic lymphocytic leukemia treated with novel agents

Klinik für Medizinische Onkologie und Hämatologie, Universitätsspital Zürich (USZ), Zürich

CHF 153 100 | 24 months | [KLS-6500-08-2025 BIL](#)
